DETAILED ACTION

Election/Restrictions

1. Claims 22 – 27 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 21 and 24 are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

S. patent 5,962,113; figures 1 – 8 and related text discloses polymerizing first cross-linking molecules having a three-dimensional structure and second cross-linking molecules having a two-dimensional structure to form an interlayer dielectric film composing a three-dimensionally polymerized organic polymer having a number of molecular pores; wherein the interlayer dielectric film is a porous organic polymer film (Columns 3 and 4).

Allowable Subject Matter

5. Claims 7 – 9, 13 and 18 – 26 are allowed over the prior art of record.

Response to Arguments
